

Rambo & Son Beach Construction

Plumbing Quote

The price includes all material for PVC drains and CPVC waterlines, which include the PVC water service to house and 4" sewer main to house. Price also includes 50 gal water heater. No fixtures are included in this price. We can work on that later or as we discussed earlier you can get them.

I will need to see a full set of prints at some point before we sign a contract to make sure what i have figured will work.
